# Class 34: Guest Intervention – Sbroiavacca

Session 34 of 36 – Guest Session

Data-driven Systems Engineering

Flexible, approx. 15 December

# Guest Session

- Presented by: Sbroiavacca, a guest speaker.
- Date: flexible, currently planned for approximately 15 December, placed as a real-world bridge right before the project requirements and development plan session in Class 35.
- Materials, examples, and technical content for this session are provided directly by the guest speaker and are not authored in this deck.
- This placeholder exists only to keep the session numbering complete in the 36-session course sequence.
